PAINT CORRECTION

Paint Correction is refining the surface, permanently removing as many defects as possible such as swirl marks, scratches, water etching or any defects that are topical and/or sub-topical thru mechanical abrasions via machine polishing, without jeopardizing the clear coat. It takes skills and patience in order to truly complete the highest degree of paint correction, displaying a true "optical clarity" on the surface.

CERAMIC COATING

Ceramic Coating adds additional protection to your car's exterior and helps keep it looking like-new with comparatively minimal maintenance. The coating achieves this result by making your vehicle more resilient and easier to clean.

Here are the main benefits:

- *Ease of Cleaning*
- *Protection from UV Damage / Oxidization*
- *Chemical Stains and Etching*
- *Enhanced Gloss*

Gold Wax

Carnauba topcoat wax, applied by hand, is designed to maximize shine and provides an incredible protection for up to 3-4 months.

All-In-One Hand Wax

Ceramic infused 'All in One' hybrid compound is suitable for all types of paint. This intensive surface polish has been formulated to correct and refine medium to heavy scratches, swirl marks, paint defects and imperfections. Once applied, the unique ceramic coating forms a layer of protection and a fabulous gloss.

All prices are subject to change based on the condition of the vehicle per manager's discretion.
