

TYLO LOW EMR/LOW EF B-SERIES FAR-INFRARED SAUNAS

TREAT YOURSELF TO HEALTHIER INFRARED

Treating yourself to the relaxation and detoxification benefits of infrared technology is now safer than ever. Tylo B-Series infrared saunas have the lowest electromagnetic radiation (EMR) and electrical field (EF) signatures of any infrared delivery system available—levels far below even Sweden's tough radiation standards.

CarbonFlex®

INFRARED HEATING TECHNOLOGY

One of the most common complaints about IR saunas is the uncomfortable sensation of "cold spots" in the sauna where no IR heat waves reach the body, and "hot spots" when seated directly in front of the old-style ceramic or metallic IR heaters. Due to the huge wall-to-wall surface area of the CarbonFlex® heating panels, the heat is evenly dispersed and the surface temperature of the heaters is comfortable to the bathers. More importantly, the large surface area creates the perfect IR wavelength.

WHY INFRARED BATHING?

- **Body-friendly.** Infrared bathing is a safe and comfortable way to detoxify, and relieve aches, pains and stress.
- **Planet-friendly.** Even with daily use, infrared technology uses as little or less electricity than many other common household appliances.
- **Family-friendly.** Infrared saunas are safe and easy to use for kids and adults alike—it's an excellent investment in your family's health.

TYLO®

B-880, 4-PERSON, NEO-ANGLE

Dimensions:
60" x 60" x 77" H
Electrical Requirements:
Plug-in, 20 amp 120-volt outlet
Model shown is in Canadian Hemlock

B-870, 3-PERSON, NEO-ANGLE

Dimensions:
52" x 52" x 77" H
Electrical Requirements:
Plug-in, 15 amp 120-volt outlet
Model shown is in Canadian Hemlock

B-840, 4-PERSON

Dimensions:
56" x 72" x 77" H
(60"D w/ overhang)
Electrical Requirements:
Plug-in, 20 amp 120-volt outlet
Model shown is in Canadian Hemlock

B-830, 3-PERSON

Dimensions:
44" x 72" x 77" H
(48"D w/ overhang)
Electrical Requirements:
Plug-in, 20 amp 120-volt outlet
Model shown is in Canadian Hemlock

B-820, 2-PERSON

Dimensions:
40" x 48" x 77" H
(44"D w/ overhang)
Electrical Requirements:
Plug-in, 15 amp 120-volt outlet
Model shown is in Canadian Hemlock

B-810, 1-PERSON

Dimensions:
36" x 36" x 77" H
(40"D w/ overhang)
Electrical Requirements:
Plug-in, 15 amp 120-volt outlet
Model shown is in Canadian Hemlock

Each Premium B-Series Infrared Sauna Includes:

- Tylo Low EMR/Low EF CarbonFlex® heating panels, integral with wall panels and bench support panels—with the largest heating surface area in the industry, providing the softest heat, evenly dispersed from all sides (no hot spots; no cold spots).
- Prefabricated wall panels, finished inside and out with clear T&G Canadian Hemlock—for a sauna with "furniture quality."
- Exterior surfaces finished with biodegradable wood treatment—for a more luxurious look and for ease in maintenance.
- Tylo digital control.
- Tylo bluetooth sound system includes sleek low profile speakers and built-in amplifier.
- Built-in Hemlock floor with heated tiles.
- Deluxe all-glass door. All sidelight windows and doors use only tempered safety glass.
- Low-voltage mini-spot lights installed in the ceiling and in the external overhang.
- Super-easy installation in minutes with pre-wired heaters, lights, stereo, etc.—with simple "plug-in" system.
- All sizes can be plugged into a 120 volt household outlet.
- ETL listed "as a complete plug-in room"—for safety and reliability.
- Industry leading warranty backed by America's #1 sauna company.
