Skyla

PRODUCT DESCRIPTION

Sculptural Light. Statement Presence. With its cascading composition of glowing orbs and a lustrous vintage brass finish, the Skyla Pendant captures the eye and commands the room. Five opal glass globes, suspended at varying heights in a vintage brass finished frame, form a dynamic vertical sculpture that brings movement, depth, and dimension to any space. The result is lighting that transcends function — an architectural centerpiece that shapes the environment around it. Skyla's diffused, ambient glow creates atmosphere while its sculptural form anchors the design. Its compatibility with the WAC Home system for Tunable White and Dim-to-Warm lighting means you can also create the perfect ambiance for your setting. Skyla is more than a fixture — it's a vision of mode lighting as art, designed to transform how we experience space, mood, and light

FEATURES

- Driver concealed within the canopy
- Mouth blown opal glass diffuser
- Thin, powered aircraft cables provide an ultraclean look for adjustable suspension height
- *Compatible with WAC Home system to create a personalized lighting experience. Components required for tunable white and dim-to-warm capabilities
