Paddle™ Style Switches

adorne® Paddle™ Style Switches feature a wide graceful paddle that works with a simple up and down motion, allowing you to turn lights on and off with ease. Integral silver contacts provide long-lasting performance.

Pair a Locator Status Light with your Paddle switch to add illumination and make it easier to locate in the dark. adorne® Paddle™ Style Switches are available in white, magnesium or graphite finishes to complement the broad range of adorne device plate options that are available.

adorne Paddle Switches are available in both one- and two-module versions. Custom laser engraving is available for select projects.

FEATURES & BENEFITS

adorne devices fit in all existing NEMA-approved wallboxes.

Heavy gauge steel frame is grounded via factory installed 12AWG ground lead. Device and metal wall plates are self-grounded to frame.

STANDARD WALLBOX

adorne devices can be installed in any existing standard wallbox.

FRAME

DEVICE

Backwire terminal screws are recessed into back of body.

WALL PLATE

Device snaps into the frame and self-aligns without any screws.

Wall plate snaps onto frame; no screws required.

Modular system solves device alignment problems, improving fit and finish in multi-gang installations.

Wall plate and frames available in 1-6 gang sizes.
