

## A Note From Our Owner, Stetson Alexander

Let me tell you briefly a little about our company, what sets us apart, and afterwards, I will take the time to go over your project in detail, explaining all available options, price points, and any relevant code requirements, so you can make an informed decision.

Our company is all about **high-quality craftsmanship and exceptional customer service**. We believe in doing things right the first time — not just meeting code, but exceeding it when we can. For us, it's not just about getting paid for a job — it's about taking pride in our work and respecting your home and your trust.

**Not all electricians are created equal.** Just like any other profession, you get what you pay for and just because you have a license, does not mean you have the integrity that goes with it.

As far as customer testimony and awards, we've earned over **200 5-star reviews across all platforms, with 170+ on Google alone**. We were honored to win **Best of Liberty Hill for Electrical Service in 2023 & 2025**, and even had a [full-page feature written about us on realtyleadership.com](https://www.realtyleadership.com).

Our company operates on a **task-based, flat-rate pricing model** — so you'll know the cost up front. We include all high-quality materials in our pricing, and we don't collect payment until the job is complete on projects under \$2,000. For larger jobs, we take a clear, well-documented deposit — giving you a hard copy for your peace of mind.

When it comes to payment, we try to be flexible — cash and checks are always preferred, but we also accept PayPal, Venmo, and have a Square reader for card payments if needed.

Unlike many companies of our caliber that charge a \$79–\$200 service fee just to come out, we offer **free and accurate on-site estimates**. That gives you a chance to get to know us, make sure it's a good fit, and ensure everything works within your budget — before we earn any money from you.

When you compare rates, the lowest-tier companies might charge around \$150/hour, while big-name companies can push \$300/hour. We're typically around \$200/hour depending on the task — but we work hard to **outperform the bigger guys on both service and quality**.

We're not the cheapest, and we're not the most expensive. If you're looking for the absolute lowest price, we might not be what you're looking for. But if you want **attention to detail, honesty, and a team that treats your home with respect**, then we believe that we could be the right choice for you.
