

Energy Efficiency Rebates

Earn hundreds of dollars in rebates when you upgrade to a new high efficiency natural gas furnace or water heater!

Atlanta Gas Light energy efficiency rebates help cover the cost of an energy-efficient furnace or water heater, making it easier to save money and conserve energy.

Furnace

Up to \$400

Earn \$300 for the installation of a new natural gas furnace with an AFUE rating of 92% to 94% and \$400 for the installation of a new natural gas furnace with an AFUE rating of 95% or higher.

Tankless Water Heater

\$300

Earn \$300 for the installation of a new natural gas tankless water heater with a UEF efficiency rating of .87 or higher. Qualified water heaters are whole house units.

Tank Style Water Heater

\$200

Earn \$200 for the installation of a new natural gas storage tank water heater with a thermal efficiency rating of .82 or higher or for the installation of a new natural gas condensing tank water heater with a thermal efficiency rating of .90 or higher. Qualified water heaters are whole house units.

To qualify for a rebate:

- The Customer must be an active customer with an account in good standing.
- The Customer must have recently installed a new qualified natural gas appliance.

Before applying, be sure you:

- Have a copy or photo of your invoice that shows date and proof of payment. This supporting documentation can be uploaded within the rebate application or mailed to the listed address below.
- Have your appliance's model number, serial number, manufacturer, and installer name available.
