

# Concolor Fir

(*Abies Concolor*)

**Evergreen Tree**

**30' - 50' High**

**15' - 20' Spread**

**Growth Slow**

**4 + Hours**

**Zone 3 - 7**

Concolor Fir is a soft evergreen with blue green needles. It matures to a pyramidal shape with dense branching. When needles on the Concolor Fir are crushed it emits a lemony scent. We recommend planting the concolor Fir in farm fields or in areas with well drained sandy soil.
