

# Alpenglow® Hybrid Maple

(*Acer x pseudosieboldianum* 'INAG-E61' USPP35081)

**Ornamental Tree**

**15' - 20' High**

**10' - 15' Spread**

**Growth  
Moderate**

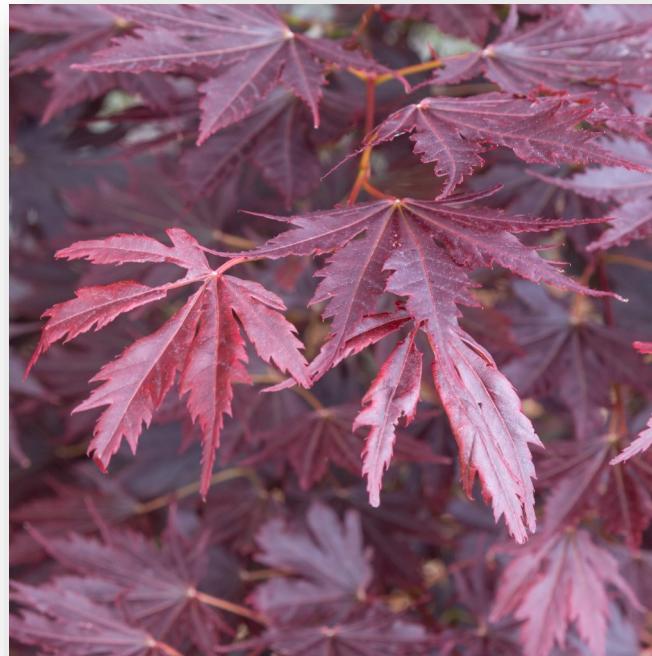

**4 + Hours**

**Hardy Selection  
Vibrant Fall Color**

**Zone 3 - 8**

Alpenglow® Hybrid Maple is a striking ornamental maple developed as a cross between Japanese and Korean maples to combine vibrant year-round interest with exceptional cold hardiness. In spring, its deeply cut leaves emerge in rich ruby-red tones highlighted by translucent veining, then soften to warm bronze hues through summer. As temperatures cool, the foliage ignites in brilliant shades of red and orange, delivering a dramatic autumn display.
