

Sienna Glen® Maple

(*Acer x freemanii 'Sienna'*)

Shade Tree

40' - 50' High

30' - 40' Spread

**Growth
Moderate**

4 + Hours

**Shade Producing
Vibrant Fall Color**

Zone 3 - 7

Sienna Glen® Maple is a virtually seedless variety of maple. The young pyramidal shape matures to a broad oval shape as the tree grows. The broadleaf green foliage turns from yellow-orange to burgundy-red in the fall. A great tree to provide shade and to add vibrant fall color to the yard.
