

# State Street™ Maple

(*Acer miyabei* 'Morton')

**Shade Tree**

**40' - 45' High**

**30' - 35' Spread**

**Growth  
Fast**

**4 + Hours**

**Fast Growing  
Yellow Fall Color**

**Zone 4 - 7**

State Street™ Maple is an extremely tolerant tree in almost any instance. This fast growing shade tree can handle acidic and alkaline soils, and grows well in Iowa's clay. State Street™ Maple has dark green leaves that turn a golden hue in the fall. A great choice for replacing Ash trees that have been infected by the Ash Borer.
