

# Tamukeyama Japanese Maple

(*Acer palmatum var. dissectum* 'Tamukeyama')

**Ornamental Tree**

**6' - 10' High**

**10' - 12' Spread**

**Growth**  
**Slow**

**0 - 4 Hours**

**Unique Foliage**  
**Understory**

**Zone 5 - 8**

Tamukeyama is a weeping or cascading variety of Japanese Maple. It has finely dissected, lace-like foliage that emerges a deep red or burgundy in spring. The foliage retains its red color throughout the summer and intensifies in the fall, turning shades of crimson and scarlet.
