

Paprika Yarrow

(*Achillea millefolium* 'Paprika')

Perennial

1.5' - 2' Tall

1.5' - 2' Wide

**Bloom Time:
Summer**

4 + Hours

Zones 3 - 9

Paprika Yarrow is an eye catching perennial with two toned flower heads. A contrast of red flowers with yellow centers sticks out in a typical green landscape. It is ideal for butterflies and other favorable insects. This species is known for its fern-like aromatic foliage. Great for filling in plant beds that need an extra burst of color.
