

# Alyssum

Container Use: Filler/Spiller

4 + Hours

Size: 6" Tall 12" Wide

Alyssum is a fragrant annual mainly used as a spiller or groundcover. It ranges in color including white, purple, pink, yellow, and red. A great annual to attract Butterflies and pollinators. Alyssum is often used as a natural pest control because it attracts predatory insects, such as lacewings and ladybugs, which feed on aphids and other plant-damaging insects. Alyssum is considered pet friendly but is recommended to keep out of reach from pets.
