

# Big Bluestem

*(Andropogon gerardii)*

**Perennial Grass**

**5' - 8' Tall**

**1' - 3' Wide**

**4 + Hours**

**Cutback in Spring**

**Zones 3 - 9**

Big Bluestem is a tall, native ornamental grass valued for its strong vertical form and seasonal color. It forms upright clumps of blue-green foliage in the summer and develop attractive red and bronze tones in fall. In late summer, distinctive three-pronged seed heads appear, often compared to a turkey's foot, adding texture and movement to the landscape.
