

Low Scape Snowfire® Aronia

(*Aronia melanocarpa* 'SMNAMPEM' USPP34116)

Shrub

4' - 6' High

3' - 4' Spread

4 + Hours

**Heavy Blooming
Red Fall Color**

Zone 3 - 9

Low Scape Snowfire® Aronia blooms white flowers in the spring. This shrub produces small berries in the late summer/early fall which are edible. The glossy green foliage turns a vivacious red in the fall. Low Scape Snowfir® Aronia was hybridized to bloom heavier than other varieties. A great shrub to add 3 seasons of interest to a landscape.
