

# Calamint

(*Calamintha nepeta* subsp. *Nepeta*)

Perennial

12" - 18" Tall

12" - 24" Wide

Bloom Time:  
Late Summer

4 + Hours

Zones 5 - 9

Calamint other wise known as Calamintha or Lesser Catmint adds a natural look to the landscape. It produces tall spikes of white flowers from late summer to early fall. Calamint will spread by rhizomes or by reseeding. A great perennial to attract pollinators and to add texture to a landscape.
