

# Purple Catalpa

(*Catalpa × erubescens* 'Purpurea')

**Shade Tree**

**40' - 50' High**

**40' - 50' Spread**

**Growth  
Fast**

**4 + Hours**

**Spring Blooming  
Unique Foliage**

**Zone 5 - 9**

Purple Catalpa blooms beautiful orchid like flowers in the late spring. It has large heart shaped leaves just like the original Catalpa, but emerge purple in the spring and fade to green throughout the growing season. Its leaves will turn yellow in the fall and will produce long bean-like seed pods.
