

Mesa Verde® Ice Plant

(*Delosperma hybrid* 'Kelaidis')

Groundcover

3" - 6" Tall

12" - 24" Wide

**Bloom Time:
Summer through
Fall**

4 + Hours

Zones 4 - 10

Mesa Verde® Ice Plant bursts with vibrant, coral-pink blooms that glow against its dense mat of succulent, blue-green foliage. From late spring through summer, its daisy-like flowers open wide in the sun, creating a bright, cheerful carpet of color that thrives even in tough, dry conditions. This compact, spreading groundcover forms a low, tidy groundcover that excels in rock gardens, along pathways, and in sunny slopes where heat and drought are common challenges.
