

Laser Beam™ Delphinium

(*Delphinium* x 'Holtabea812' USPP36982)

Perennial

24" - 30" Tall

14" - 16" Wide

**Bloom Time:
Summer**

4 + Hours

Zones 3 - 8

Laser Beam™ Delphinium electrifies the garden with upright spires densely packed with vivid, saturated blue flowers that seem to glow against their fresh green foliage. Each bloom is accented by a contrasting, light-colored eye, giving the spikes a radiant, laser-like brilliance that stands out in borders and cutting gardens. Blooming in early to midsummer, this compact yet powerful variety offers strong stems that resist flopping, ensuring its vertical form stays crisp and striking throughout the season.
