

# Red Lark Delphinium

(*Delphinium* 'Red Lark' USPP29761)

**Perennial**

**2.5' - 3' Tall**

**1.5' - 2' Wide**

**Bloom Time:  
Summer**

**4 + Hours**

**Zones 5 - 8**

Red Lark Delphinium is a striking perennial distinguished by its unusually warm, coral-red flower spikes—an uncommon shade in the delphinium world. Rising in sturdy, upright columns, the blossoms create a vivid, sunset-like display above mounded, finely cut green foliage. Blooming heavily from early to midsummer and often again with deadheading, this variety brings a bold, modern twist to classic cottage-garden charm.
