

Amore™ Titanium Bleeding Heart

(*Dicentra* 'Titanium')

Perennial

12" - 14" Tall

16" - 18" Wide

**Bloom Time:
Spring**

0 - 4 Hours

Zones 4 - 9

Amore™ Titanium Bleeding Heart is a refined, compact bleeding heart variety known for its soft, titanium white blossoms that dangle elegantly above finely textured, blue-green foliage. Blooming from late spring into summer, it forms a tidy, mounded habit that adds a graceful, airy quality to shaded borders and woodland-style plantings.
