**2' - 3' Spread**

**0 - 8 Hours/Full  
Sun or Full Shade**

FEATURES

**Red Fall Color  
Yellow Flowers**

**Zone 3 - 8**

Kodiak Fresh® Honeysuckle is a low-maintenance, deciduous shrub prized for its vibrant foliage and adaptability. Its fresh green foliage emerges in spring, transitions to gold in the summer, and ends the season with fiery shades of orange and red in the fall. Small yellow, tubular flowers bloom from late spring through summer, attracting pollinators like bees and butterflies.
