

# bloomin' Nightglow® Bush Honeysuckle

(*Diervilla splendens* 'El Madrigal' USPP28060)

**Shrub**

**2' - 3' High**

**2' - 3' Spread**

**0 - 8 Hours/Full**

**Sun or Full Shade**

**Yellow Blooms**

**Low Maintenance**

**Zone 3 - 8**

Nightglow Bush Honeysuckle foliage emerges dark burgundy in the spring and will fade to a rusty dark green throughout the season. It blooms bright sulfur yellow flowers in the summer and can withstand many harsh Iowa conditions. It can be used in mass plantings or as a foundation plant. Growing in the shade the foliage will not be as dark as in full sun.
