

Blue Hobbit Sea Holly

(*Eryngium planum* 'Blue Hobbit')

Perennial

8" - 12" Tall

6" - 12" Wide

**Bloom Time:
Summer**

4 + Hours

Zones 4 - 8

Blue Hobbit Sea Holly grows in a neat, low clump of toothed, silvery-green leaves and produces striking steel-blue flower heads on sturdy stems during mid to late summer. Each flower is surrounded by a crown of spiky bracts, giving the plant its signature thistle-like appearance. The intense blue coloration becomes even more vibrant in full sun, creating a brilliant contrast against lighter or more subdued plantings.
