**Variegated Foliage  
Hedge Plant**

**Zone 4 - 9**

Canadale Gold Euonymus is a bright, eye-catching evergreen shrub valued for its bold year-round color and dependable, easy-care nature. Its foliage features green leaves edged or mottled with gold creating a cheerful glow in the landscape regardless of season. The plant maintains a dense, compact habit that lends itself well to foundation plantings, low hedges, borders, or mass plantings, where its striking coloration adds contrast and structure.
