

# Lotus Moon™ Pearlbush

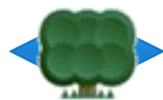

*(Exochorda x macrantha 'Bailmoon')*

**Shrub**

**4' - 5' High**

**3' - 4' Spread**

**4 + Hours**

**Spring Blooming  
White Flowers**

**Zone 3 - 7**

The Lotus Moon™ Pearlbush is a stunning deciduous shrub celebrated for its elegant white blooms and refined appearance. In spring, it bursts into a profusion of pearl-like buds that open into pristine, five-petaled white flowers, creating a striking display against its bright green foliage. These blooms last for several weeks, offering a showy and graceful presence.
