

# Hardy Hibiscus

**Perennial**

**Height Varies**

**Width Varies**

**Bloom Time:  
Late Summer**

**4 + Hours**

**Zones 5 - 9**

Hardy Hibiscus is a warm season perennial, new growth shoots are slow to surface in late spring, but once new growth begins, it grows fast! Great choice for landscapes in need of a tropical look. Cut back in the fall. This plant will benefit from regular fertilization during the growing season.
