Rainbow Rhythm® Fearfully and Wonderfully Made Daylily is a stunning perennial that showcases dramatic, eye-catching blooms on sturdy, upright stems. Each flower opens in a rich palette of deep, saturated colors, often featuring intricate patterns and contrasting throats that draw the eye and create a sense of depth and texture. The broad, arching, grass-like foliage forms a lush, low mound that provides an elegant backdrop for the vibrant flowers, adding structure and year-round interest to the garden.
