**5' - 6' High**

**4' - 6' Spread**

**Growth  
Slow**

**4 + Hours**

**Variegated Foliage  
Tropical Look**

**Zone 5 - 8**

Sugar Tip® Althea is an eye-catching, variegated form of Althea prized for its season long ornamental appeal. Its blue-green leaves edged with creamy-white variegation provide attractive foliage from spring through fall, adding visual interest even before blooms appear. From mid-summer into early fall, Sugar Tip® produces an abundance of soft pink, fully double flowers that stand out beautifully against the variegated foliage
