

# Fire Island Hosta

(*Hosta* 'Fire Island')

**Perennial**

**10" - 14" Tall**

**15" - 30" Wide**

**Bloom Time:  
Summer**

**0 - 4 Hours**

**Zones 3 - 9**

Fire Island Hosta is a standout shade perennial admired for its rich, saturated foliage color and clean, refined form. Emerging in spring with vibrant chartreuse to golden-yellow leaves, it brings a burst of brightness to dim garden spaces, gradually developing into a full, well-rounded clump as the season progresses. In summer, elegant spikes of soft lavender flowers rise above the foliage, adding height and drawing in pollinators.
