

Annabelle Hydrangea

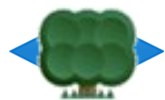

(Hydrangea arborescens 'Annabelle')

Shrub

4' - 5' High

4' - 5' Spread

0 - 4 Hours

**Striking Blooms
Strong Stems**

Zone 4 - 9

Annabelle Hydrangea has stunning pure white flowers, much larger than others of the species. Blooms appear in late spring to summer, and continuing into fall. It has strong, straight stems that hold the huge flower heads up well, despite heavy rain. This full, lush shrub needs plenty of room to show off its spectacular beauty.
