Shrub

3' - 4' High

3' - 4' Spread

0 - 4 Hours

**Reblooming
White Flowers**

Zone 4 - 9

Endless Summer® DreamCloud® Hydrangea is a luxurious reblooming shrub prized for its abundant, cloud-like clusters of soft, romantic color. Large mophead blooms appear early in the season and continue in flushes through fall. The flowers sit atop sturdy stems that hold them upright, while the plant's lush green foliage forms a full, well-rounded silhouette in the landscape.
