

Incrediball Storm Proof™ Hydrangea

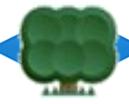

(*Hydrangea arborescens 'SMNHAGOV'* USPP36788)

Shrub

3.5' - 4' High

3' - 4' Spread

0 - 4 Hours

**Sturdy Stems
Large Flowers**

Zone 3 - 8

Incrediball Storm Proof™ Hydrangea is a rugged and reliable shrub celebrated for its massive blooms and exceptional durability. Its oversized, dome-shaped flower clusters emerge in early summer as soft lime-green buds before maturing into bright white blossoms that hold their color beautifully through the season. Supported by extra-sturdy, reinforced stems, the plant stands strong even in heavy rain and wind, preventing the flopping often seen in large-headed hydrangeas.
