

# Tiny Quick Fire® Hydrangea

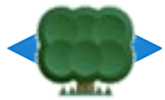

(*Hydrangea paniculata* 'SMNHPSB' USPP34468)

**Shrub**

**2' - 3' High**

**2' - 3' Spread**

**4 + Hours**

**Compact Size  
Early Bloomer**

**Zone 3 - 8**

One of the standout features of the Tiny Quick Fire® Hydrangea is its early blooming habit. It tends to flower several weeks before many other hydrangea varieties, often beginning in late spring and continuing through the summer. The large flowers emerge white and change to a red-pink. A great small variety of Hydrangea to plant in any full sun area.
