

# Cobalt-n-Gold™ St. John's Wort

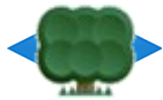

(*Hypericum kalmianum* 'PIIHYP' USPP25318)

**Shrub**

**2' - 3' High**

**4' - 5' Spread**

**4 + Hours**

**Blue-Green Foliage  
Vibrant Gold Flowers**

**Zone 4 - 7**

Cobalt-n-Gold™ St. John's Wort is a colorful, low-growing shrub that adds striking contrast and season-long appeal to the landscape. Rich cobalt-blue foliage emerges in spring and holds its deep, dramatic color through summer, creating a bold backdrop for the bright golden-yellow flowers that appear in early to midsummer.
