

# Gem Box® Inkberry Holly

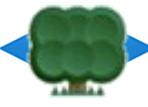

(*Ilex glabra* 'SMNIGAB17' USPP27554)

**Evergreen Shrub**

**2' - 3' High**

**2' - 3' Spread**

**4 + Hours**

**Glossy Foliage  
Boxwood Alternative**

**Zone 5 - 9**

Gem Box® Inkberry Holly is a compact, evergreen shrub that offers the refined, rounded look of boxwood with the durability of a native inkberry holly. Naturally dense and well-branched all the way to the ground, it maintains a tidy, globe-shaped form without frequent pruning. Small, dark green leaves create a fine texture year-round, with fresh spring growth often showing subtle reddish tones before maturing.
