

# **FRUIT SNACKS™** Blushing Delight™ Apple

(*Malus* 'A68-173' USPP28439)

**Fruit Tree**

**8' - 12' High**

**3' - 5' Spread**

**Fast**

**4 + Hours**

**Spring Blooming  
Late Harvest**

**Zone 5 - 8**

With a nod to spring, delicate, white flowers adorn the trees, followed by blushing red apples, closer to fall. Sweet, light, and flavorful, the fruit is crisp and juicy, making Blushing Delight™ one of the most sought-after varieties for picking right off the tree and eating. Trees are fast growing and high yielding, offering home-grown harvests of your own in the first couple of years after planting. **Pollinators: (Fruit Snacks Varieties) All Red, Golden Treat, Tangy Green, Tasty Red, Sweet Tart.**
