

Lemon Purrfection Catmint

(*Nepeta* 'Lemon Purrfection')

Perennial

10" - 12" Tall

16" - 18" Wide

**Bloom Time:
Summer**

4 + Hours

Zones 3 - 8

Lemon Purrfection Catmint is a fresh, uplifting perennial prized for its aromatic foliage and generous flowering habit. Its soft, minty-green leaves release a bright, citrusy fragrance when brushed, adding an extra sensory delight to garden paths and border edges. From late spring through summer, the plant erupts in masses of pale lavender to soft lilac flower spikes that create a cloud-like, airy display buzzing with bees and butterflies.
