

# Wildfire Black Gum

(*Nyssa sylvatica* 'Wildfire')

**Shade Tree**

**30' - 50' High**

**20' - 30' Spread**

**Growth  
Moderate**

**4 + Hours**

**Red Fall Color  
Maple Alternative**

**Zone 5 - 9**

The Wildfire Black Gum has bright red new foliage in spring, turning rich dark green before a brilliant fall color of yellow-orange, and vibrant scarlet. Brownish black bark is heavily textured adding interest even when the tree defoliates for winter. Red-tinged branches also add winter interest. Great alternative to a Maple!
