

Pristine Scarlet Penstemon

(*Penstemon* 'Dopenspriscarl' USPP31891)

Perennial

16" - 18" Tall

14" - 16" Wide

**Bloom Time:
Summer**

4 + Hours

Zones 5 - 9

Pristine Scarlet Penstemon is a striking perennial known for its vibrant red blooms and exceptional garden performance. This variety of penstemon produces clusters of tubular, scarlet-red flowers that create a bold, eye-catching display from late spring to early summer. The flowers are rich in color, attracting hummingbirds and butterflies, making it an excellent choice for pollinator-friendly gardens.
