

# Bird's Nest Spruce

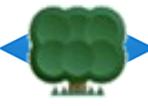

(*Picea abies 'Nidiformis'*)

**Shrub**

**3' - 5' High**

**6' - 8' Spread**

**4 + Hours**

**Evergreen  
Spreading Habit**

**Zone 3 - 8**

Bird's Nest Spruce has glossy, rich, dark green needles that are evergreen. They grow densely along the branches, giving the shrub a lush and dense texture. The cones produced by this tree are also small, about 1 inch long, and a beautiful reddish-brown in color, adding to the tree's overall ornamental appeal.
