

Gingersnap™ Potentilla

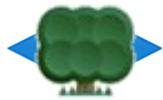

(*Potentilla fruticose* 'Hachapp')

Shrub

2' - 3' High

2' - 3' Spread

4 + Hours

**Multi-colored Blooms
Long Bloom Time**

Zone 3 - 8

Gingersnap™ Potentilla is a compact, cheerful shrub that delivers continuous color throughout the summer months. Abundant, single flowers in warm golden-yellow tones with hints of orange bloom from late spring into fall, standing out beautifully against finely textured, deep green foliage. Its naturally tidy, mounded habit requires little maintenance and fits easily into borders, foundation plantings, and low hedges.
