

# Thundercloud Plum

(*Prunus cerasifera* 'Thundercloud')

**Ornamental Tree**

**15' - 20' High**

**15' - 20' Spread**

**Growth**  
**Fast**

**4 + Hours**

**Spring Blooming**  
**Burgundy Foliage**

**Zone 4 - 9**

Thundercloud Plum is a striking ornamental tree known for its showy spring blossoms, rich purple foliage, and compact size. In early spring, it produces an abundance of delicate pink to light purple flowers before the leaves appear, creating a beautiful contrast against the bare branches. In summer, the leaves remain a rich purple, while in fall, they transition to vibrant red and orange hues, adding seasonal interest.
