

# Irish Moss

(*Sagina subulata*)

**Groundcover**

**1" - 3" Tall**

**8" - 12" Wide**

**Bloom Time:  
Spring**

**0 - 4 Hours**

**Zones 4 - 10**

Irish Moss is a lush, low-growing groundcover cherished for its dense, cushiony texture and fresh, emerald-green color. Forming a soft, moss-like carpet, it creates a tidy, uniform mat of tiny, needle-like leaves that stay vibrant from spring through fall. In late spring to early summer, Irish Moss is sprinkled with petite, starry white flowers that sit just above the foliage, adding a delicate sparkle without disrupting its smooth appearance.
