

Lucerne Blue-Eyed Grass

(*Sisyrinchium angustifolium* 'Lucerne')

Perennial

10" - 12" Tall

6" - 12" Wide

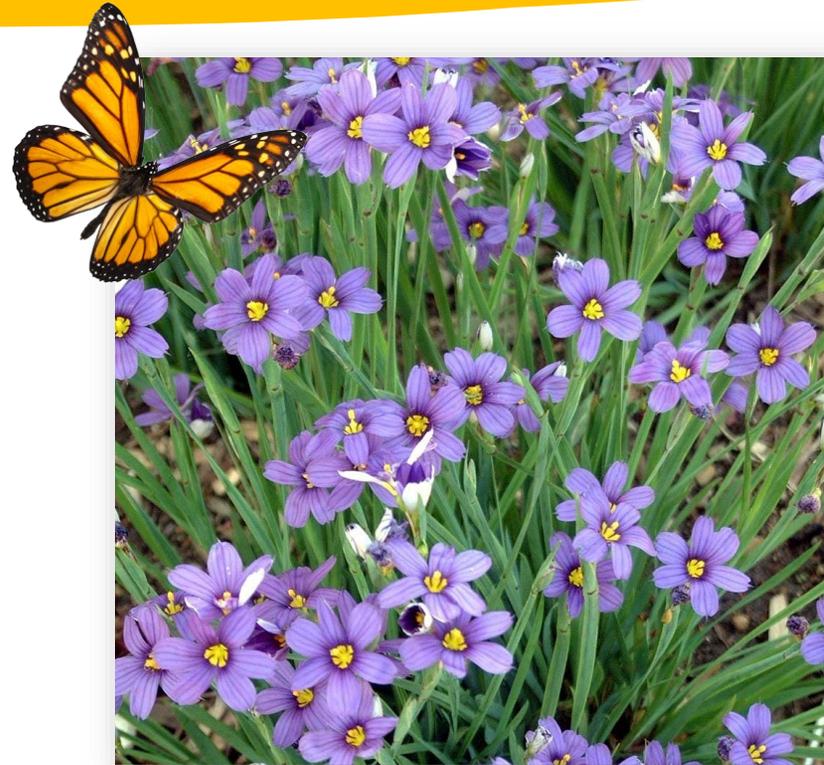

**Bloom Time:
Summer**

4 + Hours

Zones 5 - 9

Lucerne Blue-Eyed Grass forms clumps of narrow, grass-like leaves that create a neat, low-growing mound. The flowers appear in late spring to early summer, adding a pop of color to gardens and landscapes. Deadhead blooms to prevent self-seeding.
