(*Spiraea japonica* 'Iceconspir' USPP33786)

**Shrub**

**3' - 4' High**

**3' - 4' Spread**

**4 + Hours**

**Burgundy New Growth  
Prolific Bloomer**

**Zone 4 - 9**

Empire® Ice Dragon™ Spirea is a compact, hardy shrub renowned for its vibrant spring foliage and prolific summer blooms. In spring, new growth emerges in striking reddish-purple tones that gradually mature to rich green, providing season-long interest. In early to mid-summer, the plant produces clouds of small, soft pink flowers that attract pollinators and create a delicate, airy effect.
