

Heath Aster

(Symphyotrichum ericoides)

Perennial

18" - 24" Tall

18" - 24" Wide

**Bloom Time:
Fall**

4 + Hours

Zones 3 - 9

During late summer and fall, the Heath Aster produces a profusion of small, daisy-like flowers, each about half an inch across, with white petals surrounding a yellow center. Its extended blooming season makes it a valuable addition to gardens, where it attracts pollinators like bees and butterflies.
