**Shrub**

**4' - 6' High**

**4' - 6' Spread**

**4 + Hours**

**Reblooming  
Fragrant Flowers**

**Zone 3 - 7**

Bloomerang® Dark Purple Lilac is a versatile, medium-sized deciduous shrub treasured for its rich, dark purple flowers and remarkable reblooming habit. Unlike traditional lilacs that only flower once, this cultivar bursts into fragrant deep purple-lilac blooms in mid to late spring, then after a short rest sets new growth and reblooms from mid-summer through fall, often continuing until frost.
