(*Syringa vulgaris* 'G13103' USPP32670)

Shrub

4' - 5' High

4' - 5' Spread

4 + Hours

**Spring Bloomer
Fragrant Flowers**

Zone 4 - 7

New Age™ White Lilac is a compact, modern lilac that brings classic spring beauty to smaller landscapes. In mid to late spring, it produces abundant, upright panicles of pure white, sweetly fragrant flowers that attract pollinators and make excellent cut blooms. The plant forms a naturally neat, rounded habit with clean green foliage that shows strong resistance to powdery mildew.
