

# Dense Yew

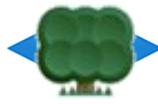

(*Taxus x media 'Densiformis'*)

**Evergreen Shrub**

**3' - 4' High**

**4' - 6' Spread**

**4 + Hours**

**Spreading Shape**  
**Red Berries**

**Zone 4 - 7**

Dense Yew is a low spreading shrub perfect for basic foundation planting for a hedge, screen or border. The dark green foliage backs scarlet-colored, berry-like cones. A versatile and durable evergreen that provides year-round interest in the landscape and tolerates shearing well.
